

Fig. 1

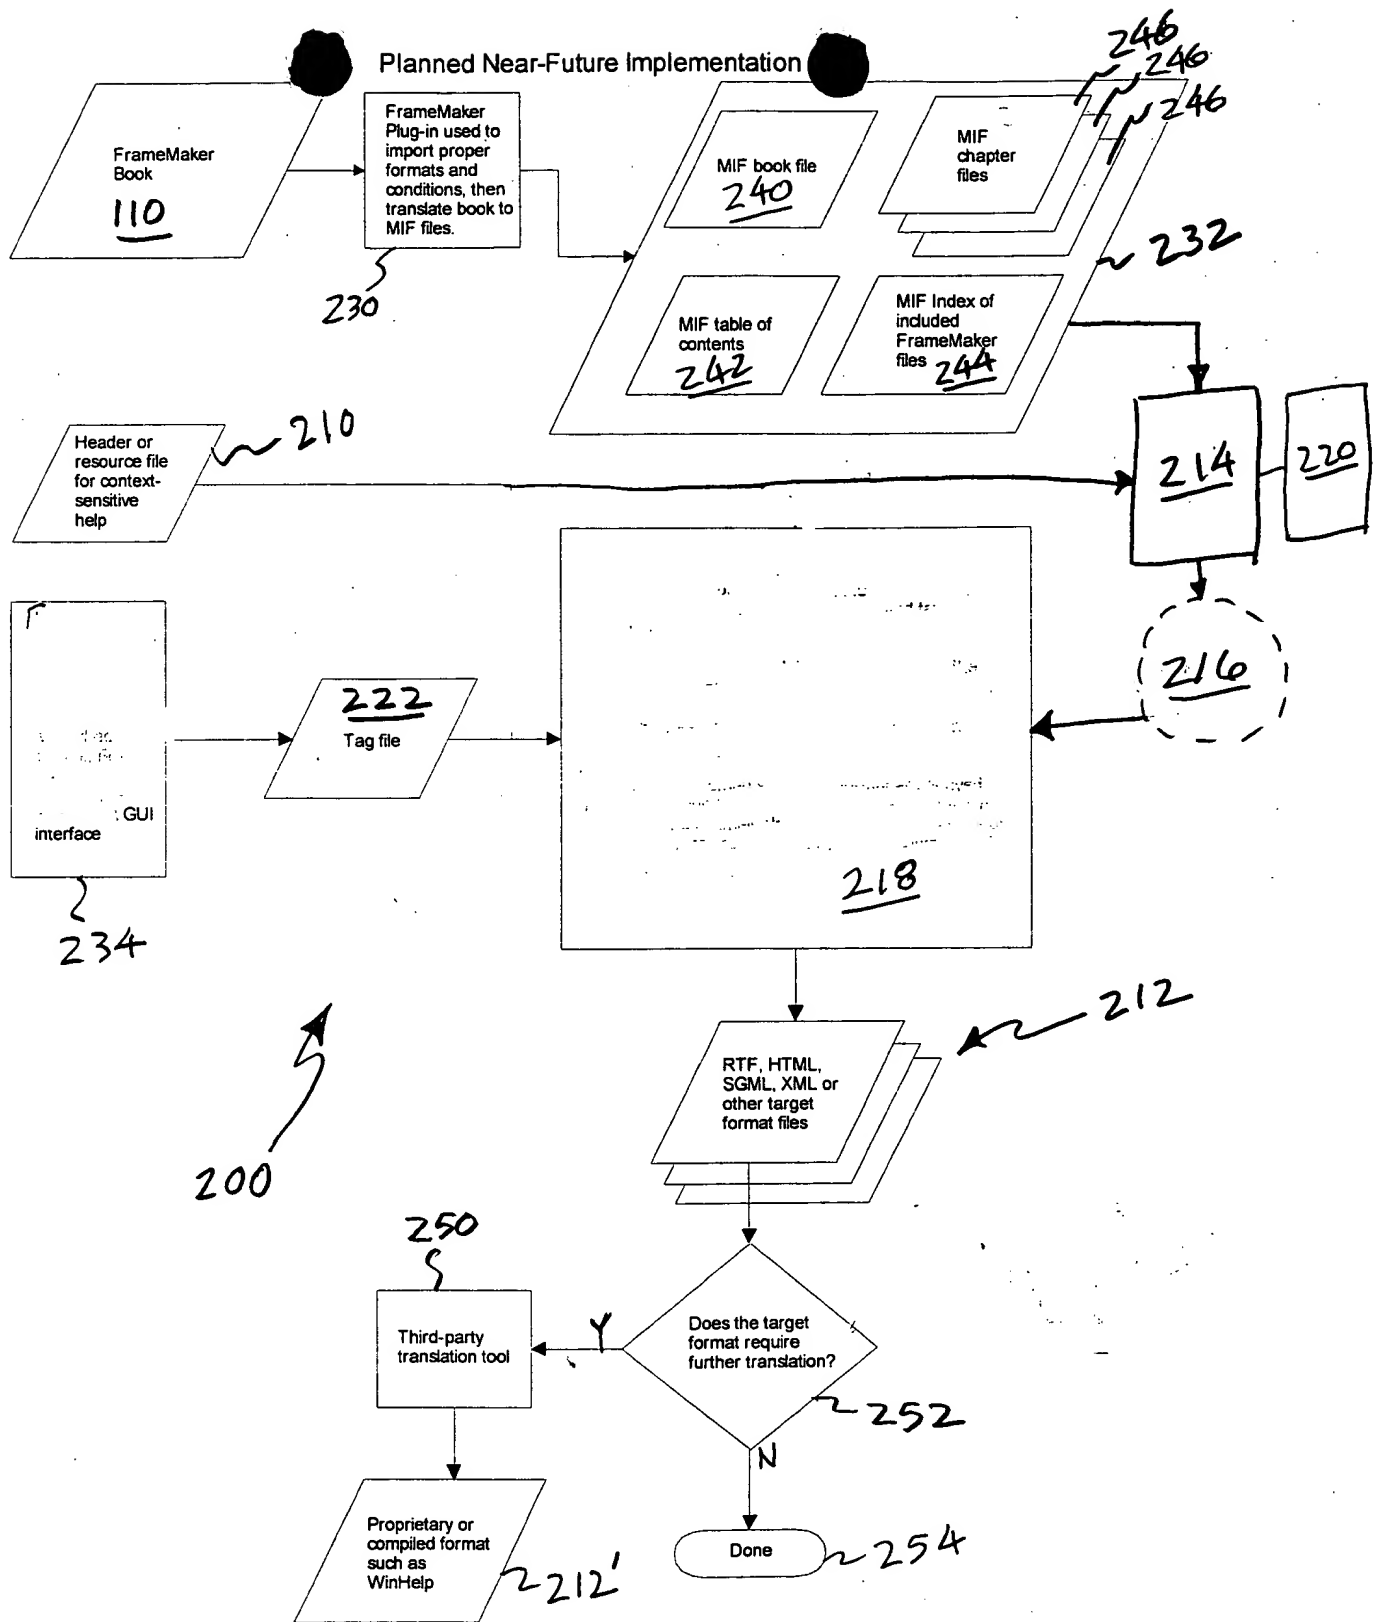

Fig. 2

The diagram illustrates a Tag File structure with the following components:

- Global project properties (in FrameMaker these would be book-wide properties)**: Located at the top, associated with tag 262.
- Document header and footer specifications**: Located on the left, associated with tag 264.
- Feature order**: Located in the center-left, associated with tag 266.
- Begin and end feature code fragments**: Located in the center, associated with tag 260.
- Feature data types**: Located on the top right, associated with tag 276.
- Implied features**: Located on the middle right, associated with tag 278.
- Discontinuity indicators**: Located at the bottom left, associated with tag 268.
- Feature locations**: Located at the bottom center-left, associated with tag 270.
- Date translation pairs**: Located at the bottom center-right, associated with tag 272.
- Macro data types**: Located at the bottom right, associated with tag 274.
- Implied feature endings**: Located at the bottom right, associated with tag 280.

A large bracket at the bottom of the diagram groups the bottom row of tags: 120, 220, 122, 222.
